

You can use the Locke Supply online **catalog** to quickly find the products that you need.

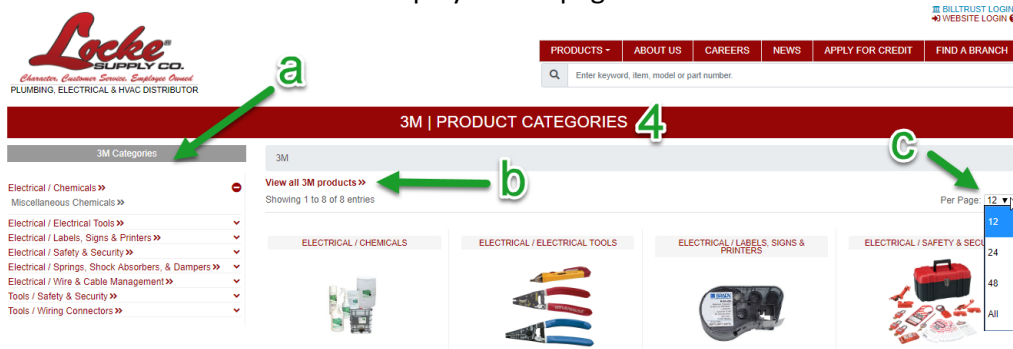

1. Go to www.LockeSupply.com
2. From the home page you can find products by **Manufacturer**, by **Category** (Plumbing, Electrical, HVAC, Tools), or by **Searching** by name, manufacturer part number, or Locke part number.

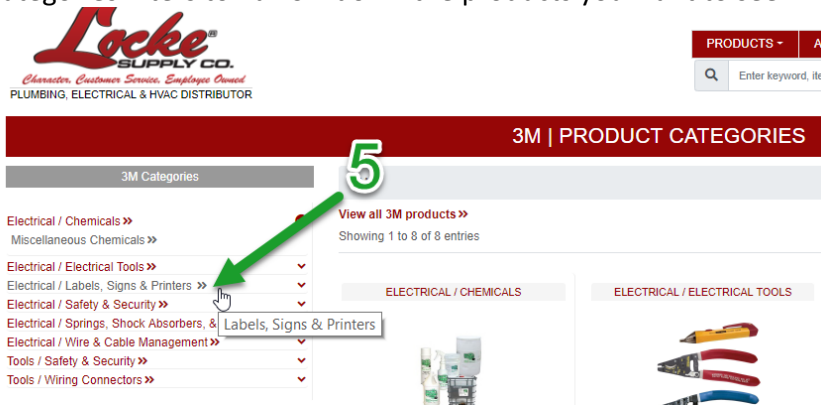

3. When you click on the **BY MANUFACTURER** option, you can
 - a. Filter the list of companies by typing a name in the **search manufacturers** box
 - b. Click a company name from the list
 - c. Change the number of names that will appear in the page or navigate to the next page.

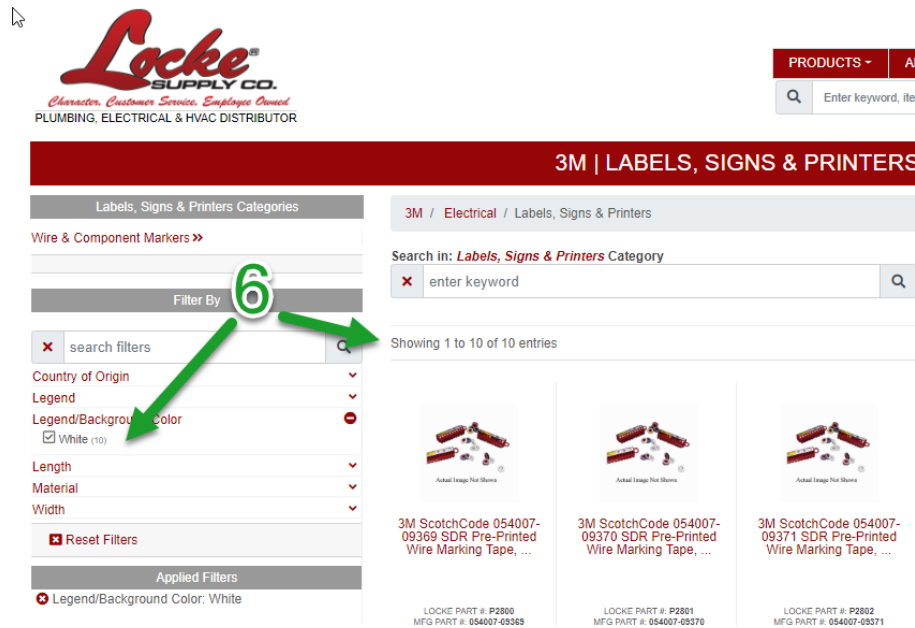

4. Once you've selected a company to browse, you can
 - a. View all categories for that manufacturer (default)
 - b. View all products for that manufacturer
 - c. Select the number of items to display on the page

5. You can use the Categories filters to narrow down the products you want to see.

6. After selecting a category to view, you can continue to filter using attributes specific to your product search.

7. The product selection will continue to filter down with each additional filter you add.
